

# Filip Mišeljić

## Frontend Developer

Email: cofo.miseljic123@gmail.com | Phone: +381 63 477798 | Location: Belgrade, Serbia

LinkedIn: linkedin.com/in/filip-miseljic

Frontend developer with 3+ years of experience building responsive, scalable web applications using **JavaScript (ES6+), Vue.js, React, TypeScript concepts, REST APIs, state management patterns, and modern build tools (Vite/Webpack)**. Strong background in component-based architecture, API integration, routing systems, Google Maps workflows, and CI/CD pipelines. Focused on writing clean, maintainable code and contributing to Agile, cross-functional teams.

### EDUCATION

**Higher Educational Technical School of Professional Studies Novi Sad, Information Technologies** 2021 – ongoing

### EXPERIENCE

**Freelance Project for “Anči Kolači”, Frontend Developer** 05/2023 – 10/2025

- Developed a full ERP system for orders using Vue.js and Quasar.
- Implemented **Google Maps API routing**, drag-and-drop driver assignment, location validation, and automated route generation.
- Built a **Windows Electron app** to optimize production workflow between departments.
- Designed reusable UI components and improved maintainability through consistent refactoring.
- Integrated REST APIs, improved error handling, and supported authentication workflows.
- Took ownership of deployment using **GitHub Actions**, optimizing CI/CD.
- Collaborated with backend developers and PM to design scalable features.

**Transatlantic Digital, Frontend Developer** 10/2022 – 12/2023

- Developed dynamic React pages and reusable component systems for the Mint Day Media platform.
- Integrated **Web3 wallet authentication (MetaMask)** and blockchain interaction flows.
- Participated in Agile sprints with senior developers, writing clean, scalable code.
- Contributed to **Dockerized development environment** and improved dev → prod pipeline.
- Performed code reviews, refactoring, and improvements to component architecture.

### SKILLS

#### Frontend

JavaScript (ES6+), Vue.js, React.js, HTML5, CSS3, Tailwind, MUI, Quasar, JSX, Responsive Design

#### APIs & Backend Communication

REST APIs, Axios, Authentication flows

#### Testing

Jest, unit testing

#### State Management

Pinia, Redux

#### Tools

Git, GitHub Actions, Docker, Vite, Webpack
